

Creative Director: Jared Garelick

Designer: Carolyn Tang

General Thoughts

- I really like the general function and layout of all the pages, looks super clean and matches the Coca Cola brand well
- Running into some issues with the rendering of images on the flavors page, will be addressed
- The home page feels a little bare compared to the other pages, doesn't make as much of a statement or feel as eye-catching

Things to Address

- Change design of the home page
- Make sure navigation bar is consistent across all pages, make a bit bigger to accommodate for a larger Coca Cola logo
- Make sure all titles are consistently styled across the pages
- Tweak the spacing of flavors and sub flavors in pop-up windows
